Empowerment through Education

Internship Programmes

Our NGO offers internship programmes for students from schools and colleges, both online and offline. Through these programs, students have the opportunity to gain practical experience, develop valuable skills, make a positive impact in society, experience personal growth, feel a sense of fulfillment through their contributions, connect with interesting individuals, and enhance their portfolio.

Interning at the VidyaDaan Foundation was an enriching and transformative experience, with several aspects that stood out as the best during my time there.
